- The CIA's SAFE Early Capability Progress Review was held at TRW's Washington Operations facility on 22/23 November. Only two action items resulted from this review which are scheduled to be addressed at the next monthly technical review session. All six COMTEN processors required for the Early Capability have been received and are in the process of being installed.
- A briefcase/package inspection was conducted by the Office of Security at the Page Building on 23 November; one incident of possible unauthorized removal of classified material was discovered which will require further investigation.
- During the past week, the Director of the Defense Investigative Service gave final approval to establishing a data link between the Fort Holabird record facility and the Office of Security.

- EURA prepared typescripts for Secretary Shultz in support of his trip to Europe in early December.
- OSWR briefed Ambassador Kirkpatrick and selected foreign ambassadors to the UN on chemical warfare in Southeast Asia and prepared an unclassified update paper on the topic (with the Department of State) for release on 29 November.
- OGI will meet with Leo Cherne to discuss intelligence analysis and support on the international finance issue.

National Intelligence Council

- U.S. financial and political policy toward Yugoslavia will be stated in separate NSSDs. DoD and State disagree over weapons sales to Yugoslavia. DoD is taking the position that it must be assumed that all weapons to Yugoslavia will reach the U.S.S.R. The issue is to be resolved at the NSC.

- NIO/GPF meet [redacted] on 26 November to review DCI follow-up taskings from the DCI's trip to Europe. Additional meetings are planned with the Directors of NSA and DIA and the service intelligence chiefs.
- The draft Memo to Holders of the Greek NIE was to be forwarded to the DCI on Monday, 29 November, for authorization to distribute it to NFIB Principals for consideration at the 7 December meeting. The revised draft NIE on political instability may also be ready for consideration at the same meeting.
- C/NIC attended a New Alternatives Workshop in San Francisco on the potential for and implications of modern precision weaponry. His main conclusion: we are developing increasingly effective weapons, not buying them, and the Russians will probably steal the technology and buy them before we do.
- NIO/SP and his assistant attended a briefing on a nearly-completed major DoD study on the implications of potential Soviet and U.S. ABM deployments, looking toward the joint net assessment on ABM that is being produced.
